Key Insights

- Average collection days rose every year: 39.0 in 2024, 44.6 in 2025, 47.2 in 2026
- Outstanding receivables concentrate in Pharmacy and Pathology, 4.1M each, against about 2.5M elsewhere
- South carries the largest outstanding balance in absolute terms, 15.4M, but that's proportional to its patient volume, not a regional efficiency gap
- Recommendation: call out the collection days trend specifically, it's worsened for three straight years while the headline efficiency number stayed flat
